<b>For Your Good Health</b>	
<p>Everyone needs a primary care physician – to provide overall healthcare, to ensure that you receive the best measures for disease prevention, to treat you when you're sick and refer you for specialized care if necessary. The primary care physicians listed are members of Memorial Hospital's medical staff who are currently accepting new patients. If you don't have a primary care doctor, take this opportunity to make an appointment with one of our experienced physicians. If you already have one, share this list with a friend. There is no greater gift than good health.</p>	
<b>Family Medicine Physicians</b>	<b>Phone</b>
<p><i>Family physicians specialize in caring for you and your family throughout your lifetime. Some also offer prenatal care and deliver babies. Family physicians provide preventive care and diagnose and treat a wide range of medical problems.</i></p>
